Guest Lectures

To further enhance our students' academic experience, we invite dynamic and engaging speakers to deliver a series of Guest Lectures at the college. As well as broadening their education during these lectures, students are provided with an authentic university lecture experience and have the opportunity to practise the academic listening and notetaking skills they have developed during their stay. In previous years we have been delighted to welcome historians, story tellers, artists and motivational speakers.

University Applications

All college students will also attend a workshop which provides practical advice on how to apply for university in the UK. Delivered by expert applications advisors, students will learn tips and techniques about the application process, such as what makes a good personal statement or what makes a successful interview in an academic context.
